

CA  
BT  
concl.  
separating said audio and data signals with a signal  
processor;  
outputting said audio signal; and  
storing at least a portion of said contextual information of  
said data signal in a removable memory cartridge.

---

Please add the following new claims.

---

D  
27. (new) The method of claim 1, wherein said step of  
storing further includes storing said audio programming onto said  
removable memory medium.

BZ  
28. (new) The receiver of claim 5, wherein said removable  
memory cartridge stores said audio programming and said at least  
said portion of said contextual information of said data signal.

29. (new) The method of claim 15, wherein said step of  
storing further includes storing said audio programming in said  
removable memory cartridge.

30. (new) The receiver of claim 22, wherein said storing  
means stores said audio programming and said at least said  
portion of said contextual information of said data signal.
